Pilum 9mm Suppressor

Product Code: PILUM 9mm
Availability: In Stock

Price: $649.00

Description

The Aklys Defense Pilum 9mm Mono-core pistol suppressor is manufactured utilizing 7075 aerospace aluminum that has been fully Mil-Spec Type III Hard Coat anodized providing a lifetime of suppressor use. The Pilum suppressor design uses a 3 piece user serviceable system for ease of cleaning and requires NO special tools for disassembly. The 7075 T-6 mono-Core of the Pilum, with its integrated decoupling system for use on tipping breach pistols, gives us the ability to offer a robust suppressor at an aggressive price point. There are also a plethora of mount options for fixed barrels pistols and carbines. (DO NOT use the LID decoupler on a fixed barrel gun).

The Pilum suppressor has been optimized for excellent sound reduction while being extremely light weight and still maintaining its durability, giving you a long lasting suppressor for a lifetime of use and enjoyment. The Pilum may be fired “wet” for ultimate sound reduction but do not store it “wet” with any water based wetting agent. For best suppression results use subsonic loads to avoid the supersonic crack once the bullet has left the muzzle. The Pilum is Full-Auto rated for all 9mm or smaller diameter handgun cartridges. The Pilum suppressor is also rated to handle .38 Special, .357 magnum, .357sig and subsonic 300BLK.

Each NFA item requires a $200 tax stamp. Must transfer out of state to an FFL/SOT. Federal, state and local laws apply. Sales price does not extend to previous purchases. In stock and ready for transfer.
